Online TRS Account

An online TRS account provides you with access to a variety of important resources, including the ability to retire online. Some of the other things you can do online include: register for events, update your beneficiaries and addresses, and download your annual membership statement.

One of the most important reasons to have an online account is to ensure all of your information is correct and up-to-date. This is especially important regarding your beneficiaries. Georgia law requires that the settlement of your account be made according to the beneficiary designation on file with TRS at the time of your death. This supercedes any other beneficiary designations you have in your will or on file with your employer.

To register for an account, please visit www.TRSGA.com and click *Account Login*, choose *Active Member* and on the left-hand side, select *Register for Account Access*. ☞

During the year, TRS improved some of our online processes, including the online retirement application, to make applying for retirement easier for the member and finalizing paperwork easier for employers. Also, members now can submit their information online to request a return of contributions.

Our member education programs have also continued to grow. FY 2015 was the first full fiscal year the new and improved New Member workshop was available and our counselors presented the show 28 times, reaching 735 members. Counseling our members is also very important for us, both in the Atlanta office and around the state. During FY 2015, our trained counselors were able to individually counsel 7,447 members.

We are constantly encouraging members to make sure they have access to their online account, which gives them many items, including their annual member statement and ability to make changes to their information. We had

24,367 active members and 3,639 retirees sign up for account access, which led to 53,721 beneficiary changes; 42,635 member statements downloaded; and 11,020 event registrations, just to name a few services our members and retirees took advantage of online.

Also, our Information Technology staff has used all the necessary tools to keep all of our members' and retirees' information safe. TRS has worked both internally and externally to ensure our system's integrity. Our dedicated IT specialists have been able to block hacker probes, keeping our system secure.

Internally, TRS hired 12 new employees and offered numerous opportunities for employee training. TRS also completed the FY 2014 audit within the deadline and we successfully closed FY 2015 under the approved budget. TRS received the GFOA Certificate of Achievement for Excellence in Financial Reporting for the 27th consecutive year.

We thank each and every one of you for your continued support and partnership with TRS. We strive to provide the best comprehensive customer service possible. We look forward to continuing to improve throughout the new fiscal year to better serve everyone. ☘

Keeping Your Information Safe

With the growing reliance on technology, security is of utmost the importance. Everyone must be aware of the information they are providing via computers and smart phones 24/7. Hackers are working faster and becoming more creative when it comes to getting the information they want. In 2014, many high-profile cyber crimes took place, including many corporate hacks, showing the increasing importance of companies constantly working to keep hackers out. Approximately 317 million pieces of malware (computer viruses, malicious software) were created in 2014. According to Verizon's 2015 Data Breach Report, cyber attacks are happening quickly, with spam emails duping their first victims within 82 seconds of the email being sent out.

Security is an especially important issue at TRS. Our Information Technology division takes every step necessary to protect all of our members and employers. They are is constantly working to keep our system secure so your information is safe with us.

Legislative Update

The 2015 legislative session concluded on April 2, 2015, and was the first year of the two-year (2015-16) biennium session. Retirement legislation that has a fiscal impact must be forwarded for an actuarial study in order to remain a valid bill for the 2016 session.

The House and Senate Retirement Committees met in a joint meeting on May 7, 2015, to decide which fiscal bills would be forwarded for an actuarial study. TRS had 4 fiscal bills (HB 459, HB 698, SB 152, and SB 246) introduced in 2015. These bills were not forwarded for actuarial studies and have "died in committee." Therefore, these bills are not valid during the 2016 legislative session. All non-fiscal bills will continue the legislative process through the 2016 session.

For detailed information on pending non-fiscal bills and how retirement legislation becomes law, please visit www.trsga.com/legislation.
