

Certification of Georgia Private School Employment

Legislation allowing TRS members to establish creditable service for previous employment in an accredited private school within the State of Georgia was passed during the 2002 legislative session and became effective July 1, 2002. The criteria listed below must be met in order for the service to be established.

1. the employment must have been on a permanent, not less than half-time, basis with a private elementary or secondary school or any private college or university located in the State of Georgia;
2. the private school must have been accredited by the Southern Association of Colleges and Schools, the Georgia Accrediting Association or a nationally recognized accrediting agency by the State Board of Education;
3. the member must have completed at least five consecutive years of membership service in the public schools of Georgia or the University System of Georgia immediately prior to applying; and

4. with the completion of each additional year of Georgia service thereafter, a member may establish a year of private school service, to a maximum of ten years.

A member who desires to establish creditable service under this provision must provide satisfactory documentation to TRS of the period of employment and that the private school was accredited during that period of employment. The cost to purchase this service will be the full actuarial cost. Full actuarial cost is defined as the amount of funds presently required to provide future benefits.

The bottom section of this form should be completed by the appropriate official of the institution and submitted to TRS in order for TRS to determine the eligibility of the service.
